Air Operated Diaphragm Pumps

The value alternative to EHEDG range.
Can be easily modified to suit your requirements

Blagdon FDA pumps are built with FDA compliant materials so they can be specified in applications requiring FDA compliance. The innovative air valve system virtually eliminates icing, stalling and the need for lubrication.

The Blagdon FDA series are electro-polished stainless steel pumps which can be used for applications in the food, cosmetic and beverage industries.

Blagdon FDA pumps are available in 1/4", 1/2", 1", 1 1/2" and 2" sizes.

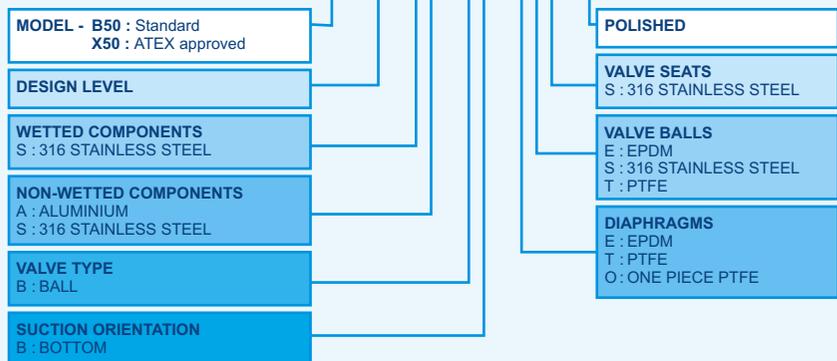

*PTFE diaphragms only.

Photograph shows 1 1/2" model.

- Range of connections
- Constructed from FDA compliant materials
- Self priming, ideal for emptying containers
